

# Problem Solution Fit

## PROBLEM

People's financial future depends on what is going on right now. People spend countless hours watching TV or scrolling through their social media feeds, but setting aside two hours a week for their finances is out of the question. They must beware of their financial condition. Make spending some time planning their finances a priority.

## OPTION

### 01 Graphical chart

The user will get an analytical report of their expenditure in form of graphs for each category they have added

### 02 Budget setting

The user can set a budget limit for each category the user have added

### 03 Email alert

The user will get an email alert if the budget the user added to that category exceeds the limit

## SOLUTION

We have come up with the innovative solution that will ask users to add their expenses and based on their expenses wallet balance will be updated which will be visible to the user. Also, users can get an analysis of their expenditure in graphical forms. They have an option to set a limit for the amount to be used for that particular month if the limit is exceeded the user will be notified with an email alert.
